PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience designing and deploying production-grade web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in REST API development, JWT authentication, state management with React Hooks, and cloud deployment. IIT-M Pravartak Certified in Full Stack Development with AI Tools. Seeking an entry-level Software Developer or Full Stack Developer role to contribute to scalable, real-world software solutions.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, React Hooks, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Render (Cloud Deployment)

Concepts: State Management, API Integration, MVC Architecture, Error Handling, CRUD Operations

Soft Skills: Problem Solving, Self-Learner, Team Collaboration, Agile Mindset

PROJECTS

Real-Time News Alert Application | MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Built a full-stack real-time news web application using MERN stack with JWT-based authentication and protected API routes, enabling secure, personalized user sessions.
- Integrated third-party live news APIs to dynamically fetch, display, and filter news content by category, reducing data latency and improving user experience.
- Developed a responsive dashboard UI using React.js, Tailwind CSS, and React Hooks for efficient state management and real-time UI updates.
- Deployed frontend on Vercel and backend on Render; implemented persistent login via localStorage and JWT refresh tokens, ensuring seamless sessions.

Invoice Builder | React.js

- Designed and developed a fully responsive invoice generation application using React.js functional components and React Hooks for real-time state management.
- Implemented dynamic tax calculations, line-item totals, and integrated PDF export and browser print functionality, enabling instant invoice sharing with clients.
- Ensured cross-device responsiveness using CSS Flexbox and Tailwind CSS for clean, print-friendly layouts.

Smart Expense Tracker | React.js

- Built a dynamic personal finance tracking application in React.js with category-based filtering, daily expense monitoring, and CRUD operations for expense management.
- Implemented interactive, color-coded charts using a React charting library to visualize spending trends across categories, improving financial insights for users.
- Designed a clean, fully responsive UI with efficient component-level state management using React Hooks.

EDUCATION

Bachelor of Engineering (B.E.) — Electronics & Communication

2016

PSN College of Engineering and Technology, Tamil Nadu | CGPA: 7.81/10

CERTIFICATIONS

IIT-M Pravartak Certified Full Stack Development with AI Tools — GUVI

- Covered MERN stack development, REST API integration, JWT authentication, MongoDB & MySQL database management, and cloud deployment using AI-assisted tools.
